PGTINNOVATIONS.COM

Dear Valued Partner,

While the "Safer-At-Home" order announced by Florida Governor DeSantis took effect last night, **PGT Innovations - as a manufacturer and supplier of products that maintain the safety of residences and other structures - has been deemed an "essential service" to our community.**

All of our Florida facilities that manufacture residential products are and will remain open and fully-operational, unless notified otherwise by the government. As we have been for the past several weeks, we will continue to strictly adhere to regulations and guidance provided by the CDC to ensure the safety of our team members.

As the nation's leading manufacturer of impact resistant windows and doors that preserve life and property – and with hurricane season just months away - we recognize that it is our responsibility to uphold our promise of delivering high-quality window and door products to the building / construction industry.

We remain dedicated to doing everything possible to ensure our windows and doors continue shipping to you with the same level of quality that you expect, and we encourage you to connect with your PGT Innovations Sales representative if you have any concerns.

Please be assured that you have our commitment of support today and in the future. Our team is here for you and will continue to connect with you as new developments arise.

Please stay safe and healthy.

Sincerely,

Jeff Jackson

President & CEO
